PRINTING

The Standard maintains a first-class Job Department and is equipped with up-to-date machinery and type to handle every class of Commercial and Society Printing with Promptitude, Accuracy, and Taste, at reasonable prices.

THE STRATHMORE STANDARD AND BOW VALLEY

Is Your Standard Paid Up?

Month and year of expiration is shown with your address. Thus, May 22, indicates that your subscription expires May 1922. Pay in advance. Postal regulations require this.

An Independent Newspaper, circulating throughout the Western Bow Valley. It is the news and advertising medium of the following points in the Bow Valley: Ardenode, Baintree, Carseland, Chancellor, Cheadle, Dalemead, Dalroy, Irricana, Keoma, Langdon, Namaka, Nightingale, Standard, Strathmore, Tudor, etc. Official organ of M. D. Keoma, No. 249.

Vol. XIV. No. 1 | Strathmore Alberta, October 4, 1922 | Subscription per Annum, $2.00, Foreign $2.50

OUR FOURTEENTH BIRTHDAY

This issue of the Strathmore Bow Valley Standard is No. 1 of Volume XIV. The Standard has now completed thirteen years of publication under the one editorship, with the exception of the war years, 1916-17-18 The first issue of the Standard was published on October 2, 1909. We have to thank our many subscribers, advertisers, etc., for their support during the years that have elapsed since our first publication, and trust that this support will be continued in the future. We will do our utmost to justify it.

The Standard has now a greater circulation than in any year since its birth ,and it still continues to grow.

Harvest Home Anniversary

The Union Church Harvest Home Anniversary services were held on Sunday, October 1st. The day was beautiful and the attendance morning and evening was unusually large. The music was most inspiring, a large choir of the younger people singing in the morning and a full senior choir in the evening. Mention should be made of the fine devotional duet by Mrs. Todd and Mrs. Smith, accompanied by Mrs. Girvin, pianist, in the evening. The harvest decorations of fruit, grain and vegetables together with exquisite flowers made a scene in the sanctuary long to be remembered.

On Monday evening the ladies served dinner in the basement, whose appointments were perfect and this was followed by a concert of musical and literary character in the church. The Strathmore Orchestra was generous in its fine music. Mrs. Smith, Mrs. Todd and Mr. Patrick delighted the large audience with solos and encores, and Mrs. Dawson, Mrs. Zerkle and Mr. Winters contributed enjoyable readings. Rev. A. D. Currie gave a speech in his usual happy and witty manner.

CARSELAND NOTES

A dance will be held in Carseland consolidated school house on Friday, October 6th, proceeds to assist in erecting a skating rink for the town. Everyone welcome. Come and bring your friends. A good time is assured.

The Ladies' Aid of the Methodist Church held a poultry sale at the meat market on Saturday.

Mrs. Stinson assisted Mrs. Haskayne in the sale of candies.

The Rally Day service held on Sunday was delightful. A good attendance and a good address by our minister, Mr. Launsdale, was enjoyed. Also a short but pointed story for the children. The church was beautifully decorated for the day with Asters and Autumn leaves.

Mr. and Mrs. Stinson visited over the week-end in the country.

Mr. and Mrs. A. Fixstall spent the week-end in Calgary.

Hospital Will Close

October 2nd, 1922.

To Strathmore Standard

Dear Sir:

I have been asked to notify you that on and after October 15th the above hospital will be closed. The following is a copy of the motion.

"That taking into consideration the present financial conditions of this district and the want of financial support generally the board regrets that they have decided to close the hospital on October 15th until further notice." Moved by Mrs. E. Way and seconded H. Hansen. Carried nem. con.

Statement of assets and liabilities to September 30th 1922.

ASSETS

Balance in bank at September 30th	$ 51.41
Bills receivable:	
Keoma	369.75
Bow Valley	259.67
Blackfoot	12.50
Town of Strathmore	70.00
Government grant approximately earned to date	168.50
Total	$870.73

LIABILITIES

Rent	175.00
Salaries to date with arrears	250.00
September expense account	150.00
Expense account arrears	392.60
	$967.60

Balance of liabilities over assets $96.27.

A. D. CURRIE, Sec.-Treas.

Threshing Reports

Another week of good weather will see threshing pretty well completed. Some districts have now completed threshing, but quite a lot remains to be done around Strathmore.

Grain is moving freely into the elevators, at all points in the district. The track price is around 80 cents per bushel wheat, and wagon load 75. Crop reports are as yet fragmentary and yields are varying greatly.

Mr. James Martin, 8 miles south of Cheadle, averaged 25 bushels per acre wheat, while Mr. Martin Vandervelde, adjoining to the south, made 27 1-2 bushels, all on dry land.

Oats at the C. P. R. Demonstration Farm will average altogether about 50 bushels per acre.. One irrigated field went 72 1-2 bushels.

Mr. A. Kerstens, close to Strathmore, brought some irrigated oats into a local elevator which weighed 44 1-2 lb to the bushel, the average yield was 85 bushels to the acre on this irrigated field.

Namaka irrigated fields are going from 25 to 40 bushels wheat per acre.

Craigantler Yields

Comparison between irrigated and dry yields is very pronounced at Craigantler, where the rainfall this season was very much lighter than usual. Here are some reports:

P. L. Beck had 130 acres wheat which averaged 40 bushels per acre, irrigated.

C. Mulback, adjoining had about 40 bushel per acre irrigated, and 27 bushel on irrigated stubble.

L. Rasmussen considers that water benefited him to the extent of 30 bushels per acre, his dry farm yields going from 7 to 8 bushels per acre, while irrigated averaged 25.

Mr. Lavridsen's oats averaged 75 bushels per acre.

On the average throughout Craigantler irrigated land is making from 30 to 40 bushels, and dry land 10 to 15.

GRAIN PRICES

October 3rd, 1922.

The following grain prices are for grain by wagon-load at Strathmore, not track prices, and for information of the public only. Figures are kindly supplied by Mr. H. Eves, of the Robin Hood Elevator.

NEXT WEEK WITH THE CHURCHES

ST. MICHAEL AND ALL ANGELS' CHURCH

2nd and 4th Sundays at 8.30 a.m.

Matins, 2nd and 4th Sundays at 11 a.m.

Evensong every Sunday at 7.30 p.m., choir practice at 8.30 p.m. on Fridays

UNION CHURCH SERVICES

Sunday, October 8th, 1922.

Strathmore—Morning Worship at 11 o'clock, Bible School for all ages at 12 o'clock, Evening Worship at 7:30 o'clock. Subject, "I have Five Brothers." A family of six boys who are not in church. Why not,

Will all friends remember that October is Come-To-Church Month?

ARTHUR H. ROWE, B.A. Minister

ROMAN CATHOLIC CHURCH SERVICES

1st Sunday of month, Mass at Carseland 9 a.m. Strathmore 11 a.m.

3rd Sunday of month, Mass at Langdon 9 a.m., Strathmore at 11 a.m.

Rev. J. E. DUGGAN, Pastor.

Raintall tor the Season

The yields being attained this year in many cases on dry land are wonderful, when the small amount of rainfall during the growing season are taken into account.

We have secured from Mr. R. S. Stockton, whose department records precipitation, etc., for the whole of the Western Section, the following figures showing the rainfall for the season:

March	.45
April	2.71.
May	0.36.
June	1.30.
July	0.83.
August	2.73.
September	0.71.
Total	9.09.

The average for the Western Section, April to August inclusive, is as follows:

April	1.55.
May	0.52.
June	1.16.
July	0.99.
August	2.76.
Total	6.83.

The Strathmore record for the same months was 7.92. The average for the Western Section for April, May, June and July for this year was 4.22. Records for the whole section are not available over a long period of years but in Calnary the average for the same months from 1881 to 1921 was 8.5 inches, so that the precipitation this year was slightly less than half the 30 year average.

"There seems to be no doubt that the Municipal Hospitals of Alberta will become permanent establishments in the life of the province." This opinion is from the Canadian Red Cross magazine, and that paper points out that "the work is illustrative of what an enlightened province can do in order to provide for the necessary medical and nursing needs of the people living in districts at great distances from the services which are afforded towns and cities."

This is fire prevention week throughout the Dominion of Canada. Everyone should look to the condition of their stoves, chimneys, etc., before the cold weather comes along. Also see to the disposal of waste and rubbish that might prove a menace later. Special instruction will be given by theschools on fire prevention.

Messrs. Swenson and Boyles have now shipped well over 20,000 bushels of wheat from their siding on the C. N. R. near Baintree. Mr. John Boyles, father of Mr. Richard Boyles, is at present on a month's visit to the farm from his home at Uniontown, Wash.

Weather Report

September 26 to October 2

Supplied by C. P. Irrigation Dept.

Date	Min.	Max.	Precipitation
26	49.2	80.3	
27	40.7	70.8	
28	37.2	67.6	
29	30.2	64.8	
30	32.0	76.3	
1	34.2	56.3	
2	31.7	60.8

She is coming to Strathmore. The Mistress of the World.

Look in the label on your subscription and see if you are paid up. The figures after the month are the last two of the year to which you are paid.

News of The Province

What is regarded as a very good sale of Alberta Government bonds was made this week, when $3,000,000 debentures were sold to the National City Company of New York, and Montreal at 97.334. The proceeds of this sale will be used for refunding purposes and the sale indicates that Alberta's financial position stands high. Eight bidders submitted prices, showing a strong demand for our provincial securities.

Business barometers are all pointing to better times. The big coal strikes are nearing adjustment. The recovery is more noticeable on this side of the Atlantic than overseas. For food products the dollar is going much further than a year ago. On the prairies this year fruit is cheaper than for some years, and this is a great thing in prairie homes. For some time past fruit has been a high-priced luxury looking into a slim pocket-book This year the fruit prices and the ordinary pocket-book are getting closer together.

Transatlantic poverty has been responsible to a large extent for the depression in grain prices. Rumors of war in the near east have sent the price of wheat up a few cents. We do not want war, but on the prairies we do want higher prices for our grain products. Western people are homely enough in their way of thinking these days, to find it hard to correlate the last year's prices on hides and wool with this fall's prices on boots and clothing.

The large amount of house-building in Edmonton this year is an indication of a return to better times More home building this year than for the past several years.

For the first time in years the Canadian dollar last week was worth over par on the United States exchange.

The good crop in Southern Alberta is again demonstrating the fine recuperative qualities of the Sunny South.

Perhaps the best indications we have before us in Alberta that real business is again opening is in the decision of the National Railways to start work in Edmonton on their large western car shops; and the Imperial Oil Company to erect a large oil refinery plant at Calgary. These things have a real meaning.

Two announcements of much importance to Alberta have been made this week. One is that the Research Department of the University of Alberta has found a process by which a large proportion of the sand in the Athabasca tar sands can be removed, and the bituminous tar residue becomes a commercial commodity for shipping and ready use for road making and other purposes. The other announcement is that American capital has been secured to open and develop the Butterfield iron ore deposits discovered a year or two ago on the shores of Lake Athabasca. In the developing of Northern Alberta both these matters are of great importance. If the tar sand products can be put upon the market at a reasonable price, the field for their use is unlimited. If the iron ore is in Alberta in large quantities, this, together with the proximity of coal, as we have it, always forms the nucleus of a large industry.

From several points in Alberta comes the news of the formation of curling clubs, and the erection of new curling rinks. No winter sport fits in to the life of Western Canada, so far as participation is concerned, better than curling. Like golf, it appeals to the young and old of both sexes. It is a friendly game, good exercise, and a sport that does much to promote good feeling, and it makes our Western winter seasons of joy and pleasure to an ever-increasing number of votaries and thus has a good influence on Western Canadian life.

Board of Trade Meets

A very successful meeting of the recently organized Strathmore Board of Trade was held in the Oddfellows' Hall on Friday evening. There was a large attendance.

Vice-President Thos. E. Wright presided over the meeting, in the absence of Dr. Girvin, President, who came later.

A list of the various committees formed was read. The committees are as follows: Entertainment, Publicity, Retail, Membership, Sports, Industrial and Agricultural.

The report of the executive committee was adopted.

Better Roads

Outside of organization, the principal matter liscussed at the meeting was the necessity for improvement of the roads leading to Strathmore. It was stated that even now,teams bringing in grain were being stuck within a couple of miles of town.

It was thought that the fixing of some of the worst places would greatly assist for the present, and that some comprehensive scheme of improvement should be followed later.

Mr. R. S. Stockton gave instances where mixture of clay and sand had resulted in a good roadbed. The trouble was the proper proportion to be used. On parts of the Calgary road the soil had the proper proportions naturally, with the result that the road was always in good condition. In other places there was too much clay, and in others too much sand.

It was stated that there was a sum of money lying in the bank at present to the credit of the Strathmore Automobile and Good Roads Club, and it was thought that possibly this could be utilized for the improvement of the roads leading into Strathmore.

It was agreed to hold the regular meetings of the Board of Trade on the second Tuesday of each month.

NAMAKA NEWS

The Rev. Marr, secretary of the British and Foreign Bible Society gave an address here on Rally Day Work done by the Bible Society since its organization a few years ago. It is a Society that distributes bibles among all nationalities, often times receiving no remuneration for the bibles, but expecting required funds to carry on this good work.

Two collectors were appointed for this district, Mrs. E. Lewendon and Miss Hazel Sims, who will endeavor to cover all localities in this district, and we trust they will meet with a ready response, the society being in urgent need of funds.

Mr. A. J. Sims, of Menahja, U. S. A., brother of Mr. J. B. Sims, is visiting at the home of Mr. and Mrs. J. B. Sims.

Mr. and Mrs. Carney, of Claresholm, were visitors of Mr. and Mrs. J. B. Sims on Sunday.

We regret to report the death of Mrs. Geo. Inkster's youngest child, age 2 months, which succumbed to whooping cough on Saturday last and take this opportunity of extending our deepest sympathy to Mr. and Mrs. Inkster in their sad and sudden bereavement.

Mr. and Mrs. H. E. Thomas were visitors to Calgary on Saturday.

The U. F. W. A. will meet at the home of Mrs. F. G. Wheeler on Saturday next.

ACCIDENTALLY SWALLOWS GASOLINE

Harry Dunsmore, a popular and well known farmer northwest of Rockyford, met with a serious mishap on Tuesday. He was trying to prime a gasoline engine by sucking the gasoline up and when he turned the crank a quantity of gasoline was shot into his lungs and stomach. Dr. Tiffin was sent for and gave the necessary treatment. Mr. Dunsmore is somewhat improved but is still poorly ill. It is hoped there will be no complications and that he will soon be around again.

Who is the Mistress of the World?

"The Canadian railways are to coordinate their colonization activities with those of the association and also provide special transportation for settlers and settlers' effects and colonization agents," he concluded.

School Fair Prize List

Following is a list of the winners in the Strathmore School Fair, held on September 26th.

The fair, as stated in last issue, was a most successful one, and the exhibits were eloquent though silent testimony to the productivity of the soil, and the interest taken by the children in the work.

The non-competitive exhibit arranged by Mr. Freeman, of the C. P. R. Irrigated district, included fresh straw berries and pears, which are somewhat of a novelty so late in the season. Cucumbers, pumpkins, and many flowers and vegetables contributed to this excellently arranged exhibit.

The grain sheaf exhibits sent in by children, were, in the opinion of the judges, exceptionally good. And throughout, the fair was stated by Messrs. Austin and McDougall to be one of the best in the province.

Vegetables

Collection of Vegetables—Gertrude Small, Mary Korek, Hida Galpin.

Potatoes—Richard Tudor, Ivey Cote Wm. Tudor.

Beets—Anna Franssen, Milton Moorhouse, Richard Bens.

Carrots—Dorothy Freeman, Esther Stockton, Billy Bates.

Parsnips—Wm. Tudor, Margaret Freeman, Esther Stockton.

Turnips—Milton Moorhouse, Fay Haywood, Joe Vormans.

RED ROSE TEA "is good tea" 16

Be A True Sportsman

The shooting season in Canada's Western Province is at hand and young and inexperienced sportsmen will vie with seasoned old hunters in taking toll of wild duck, prairie chicken, geese and bigger game. In many respects the West constitutes the amateur hunter's paradise. In other Provinces, to a very great extent, it is necessary for sportsmen to travel far afield from home to enjoy the hunting season, but in the Prairie West wild duck are to be found on almost every pond, slough and lake, while prairie chicken feed about the stooks of grain and roost in the little wooded bluffs which dot the farm homesteads.

These game birds are one of the assets of our Canadian West, and an asset worth protecting. Apart altogether from the sport of hunting, these birds have a high food value and are a delicacy much enjoyed by all. During the close seasons their presence adds to the picturesqueness of Western life and call forth expressions of interest and delight from permanent residents, visitors and tourists.

It is in the interests of all, therefore, but perhaps more particularly in the interests of the sportsmen themselves, that restraint should be exercised by all hunters at the opening of, and throughout the shooting season. Laws have been enacted restricting the period of the "open season," limiting the size of the daily and seasonal "bags," and imposing penalties for infractions of these ordinances. Violations of these laws are, however, not always easy of detection, but it should be a part of every true sportsmen's code that he observe these laws which have been enacted for his own and the public good, and that he should actively interest himself in seeing that such laws are obeyed by others, and offenders brought to book.

Old-timers can recall when the buffalo ranged over these prairies in countless thousands; so numerous in fact that any thought of the possibility of their extermination never entered the mind of anyone. Yet a comparatively few years of wanton, wholesale slaughter and the buffalo disappeared and is only to be seen today in zoological gardens and in specially prepared Government reserves. In like manner the industrious little beaver, Canada's national animal, was in danger of extermination until the killing of beaver at any and all times was prohibited.

A report recently issued by the British Columbia Government states that the famous Fraser River, the greatest river in the world for years in its yield of sockeye salmon, whose waters only a decade ago were so crowded at spawning seasons of the year that a person could literally walk across a solid mass of fish, is now fished out of sockeye, and that the Skeena River, for decades second only to the Fraser in its salmon production, has practically reached the same condition. And the salmon industry was not so long ago one of British Columbia's greatest industries, and one which advertised that Province all over the world. The men who have been responsible for thus annihilating the salmon in a hurry-up get rich quick scheme have ruined not only their own business but have inflicted irreparable loss on their Provinces and Dominion.

There should be an object lesson in these things, the force of which should not be lost upon every man who takes out a hunter's license in the Western Provinces this year. Some men may think it smart and an evidence of great skill and marksmanship to bring down an unusually large number of birds, and to boast of their achievement, but it is something over which they should hang their heads in shame, rather than boast about aloud.

Shooting for the sake of shooting is not sport, and the man who indulges in such a practice is not a true sportsman. And most assuredly he is not the friend of sportsmen, because sooner or later the inevitable result will be to deprive everybody of a legitimate means of sport, and to rob this country of what has already been described as a very valuable asset.

Game guardians should be accorded every possible support by all true sportsmen and lovers of wild life. Instead of assisting offenders against our game laws to escape detection and the just penalty for their infractions of the law, people generally should co-operate to expose these lawless ones and bring them to justice.

The West can ill afford to have our game birds go the way of the buffalo, the beaver and the sockeye salmon. Strict observance of existing game laws by sportsmen, and the exposure of the few who consider their momentary pleasure to the rights and interests of others and who by their acts jeopardize the future, will assure to the Western Provinces an ever-continuing pleasure and guarantee a retention of one of the picturesque features of the country—its wild bird life.

Johnnie's Game

Jimmy.—Mother, may I play at making believe I'm entertaining another little boy?"

Mother.—"Yes, dear, of course."

Jimmy.—"Well, will you give me a piece of cake for him, please?"

Call Her? Oh, No!

Mistress.—What is your name?

Maid.—Miss Jenkins.

Mistress.—But you don't expect me to call you Miss Jenkins.

Maid.—Oh, no; not if you've got an alarm clock.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

BAYER Genuine

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache
Toothache	Neuralgia
Earache	Lumbago
Rheumatism	
Neuritis	
Pain, Pain	

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Coaching Through London

Enthusiasts Pay for Privilege of Handling Ribbons

One of the most entrancing sights of London to many visitors is the fine coach-and-four which every morning makes its way along Piccadilly and so out on to the high road, with a load of happy passengers for Hampton Court—a three hours' run. But few people who see the coach and listen entranced to the guard's cheery blast on his posthorn—few Londoners even—know that the vehicle is driven each day by a different man of means, a coaching enthusiast, who pays so much towards the maintenance of the service for the privilege of being allowed to handle the ribbons. It is quaint things like this—and there are many of them—that make London so fascinating, alike to the visitor and the man who "belongs."—Overseas Daily Mail.

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because it leads to indigestion, fills the system with poisons, brings on anaemia. You don't need a purgative, you don't want to weaken the system by a harsh griping medicine—what you need is mild natural stimulant to the bowels. You get just what you need in Dr. Hamilton's Pills which tone up the liver, restore the bowels to perfect action and positively end constipation. You'll feel tiptop after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine, 25c all dealers or The Catarrhozone Co., Montreal.

Britain Scraps Six Ships

In accordance with the Washington naval agreement the Admiralty has ordered six large capital ships scrapped. They are the battle cruisers Lion and Princess Royal, and the battleships Orion, Monarch, Conqueror, and Erin, all among the most famous warships in the British navy.

A GENTLE LAXATIVE FOR THE CHILDREN

Mothers—the surest way of keeping your little ones well and happy; whether it is the new-born babe or the growing child is to keep their bowels regular and their stomach sweet. Nine-tenths of all childhood ailments are the result of clogged bowels and sour stomach. The most necessary and the best medicine for little ones is a gentle laxative—something that will relieve constipation; sweeten the stomach and promote rest and natural sleep. Such a medicine is Baby's Own Tablets. They are a gentle but efficient laxative; are absolutely guaranteed free from opiates or other injurious drug and may be given to the youngest infant with perfect safety. They banish constipation and indigestion; break up colds and simple fevers and give the baby that health and happiness which all children should enjoy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Japanese Excels in Brains

The brains of the Japanese, both male and female, average greater weight than those of the Americans and English.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Restore War Devastated Regions

Reported Hugo Stinnes Will Enter Pact With French Interests

Industrial leaders of Berlin, who are credited with being well-informed in regards the plans of Hugo Stinnes, Germany's leading industrialist, predict the early conclusion of a pact between Herr Stinnes and a group of French interests, represented by the Marquis de Lubersac, which will have for its object the scientific working out of a plan for the restoration of the war-devastated areas.

The negotiations, which have been going on virtually over the heads of the German and French Governments, will make it possible for local cooperationists and larger units in the former French zone to contract direct with the Franco-German syndicate for building and other materials, which will be delivered chiefly by Germany.

Big Fox Ranch For Minneapolis

Organization of a $5,000,000 silver fox ranching and fur marketing company has been completed in Minneapolis, Minn. The company plans on having several thousand pairs of Prince Edward Island foxes on its ranches in a few years.

Ruled Out

Any kind of financial theorist can get a hearing in Russia, except one who insists on the old ideas of hard work, thrift and well protected credit. —From the Kansas City Star.

The building of the Suez Canal began in 1859 and required 10 years.

Ask for Minard's and take no other

OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 94% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

The Mad Motorist

Just Penalty for the Man Who Endangers Human Life

One thing is certain, the motorist who goes careening through the streets, without regard for the life and limb of pedestrians, or who operates his car while under the influence of liquor, is as much a menace to the community as a mad dog and deserves no more consideration. In addition to other penalties imposed, persons found guilty of these graver violations should be deprived forever of the privilege of driving automobiles. If a cashier embezzles his employer's money he is not usually again to be trusted with the handling of funds. Why trust with potential engines of death those who have shown themselves unfit?—Detroit Free Press.

A Costume That Any Miss Would Adore

The cape has found its way into all departments of the wardrobe, and when it is used as a smart and important part of a white knitted wool sport suit it becomes indispensable.

Executions In Russia

1,766,118 Persons Said to Have Been Executed Under the Bolshevik

A Riga dispatch to the London Times says that according to official Bolshevik figures, the Cheka executed 1,766,118 persons before being recruited the supreme political administration last February.

The total includes 6,755 professors and teachers, 8,800 doctors, 355,250 other intellectuals, 1,243 priests, 54,650 officers, 260,000 soldiers, 59,000 policemen 12,950 land owners, 192,550 workmen, 815,100 peasants.

During the civil war the Bolsheviks have had more killed than all Russia during the great war.

The Druggists All Agree That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor, and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for "Putnam's." 25c everywhere.

India has perhaps a greater variety of plants than any other country in the world, having 1,500 native species, or about 50 per cent. more than is embraced in the flora of the whole of Europe.

A consignment of ostrich skins for shoe leather recently arrived in Boston. It is claimed they will outwear leather footwear and cost less.

KIDNEY 4087 THE PROPRIETORS

The Binder After Harvest

It Pays to Cover and Protect Parts From the Weather

The knotter mechanism of the binder is a complicated and delicate piece of machinery and should not be exposed to the weather. A heavy coating of rust on these parts causes most of the knotter trouble of the following years. If the machine must be left in the field for a time it is a good policy to cover the knotter part with a heavy coating of axle grease and tie an old piece of canvas over the binder head.

Binder canvases will not stand any particular amount of exposure and should be removed as soon as the machine is stopped. Crickets and mice quickly destroy the canvas and in some cases even eat the slats. One will be repaid for his time if all the canvases on the binder are well wrapped in heavy building paper and suspended on wires from the rafters in the granary or hay loft where they cannot be molested by insects or mice.

At the Yarmouth Y. M. C. A. Boys Camp, held at Twelve Falls in August, I found Minard's Liniment most beneficial for sunburn, an immediate relief for colic and toothache.

Alfred Stokes,
General Sec'y.

Mennonites Would Return to the West

The Mennonites who left Saskatchewan for the southern states would like to get back to their Western Canadian farms, according to several letters received by the Department of Immigration and Colonization at Ottawa. Some of the communications are of the nature of appeals to be assisted back to their old homes.

In Guiana, when a native is stung by a bee, he proceeds to catch as many of the insects as he can and devour them in revenge.

A TWO-FOLD DUTY

Many thoughtful mothers first give their children

Scott's Emulsion

regularly—and then *take it themselves.* It is a tonic-food that contains elements as needful to an adult as to a child. *Build up your strength—try Scott's.*

Scott & Bowne, Toronto, Ont. 19-4

All For His Children

This Man Might Be Able to Settle Germany's War Debt

A writer in a German newspaper has been estimating the fortune of that mystery magnate, Hugo Stinnes. Before the war it was reported that his private wealth amounted to M35,000,000—gold marks, of course. His fortune today is more difficult to estimate because it is scattered over many companies in numerous countries. But financial circles, who study these things with much interest, say that he is now worth M140,000,000 —gold. He has therefore quadrupled his wealth during the war and since. In paper, that fortune equals the dizzy figure of M7,000,000,000, so that Hugo Stinnes is a millionaire in paper marks 7,000 times over. Asked recently why he worked night and day piling up millions, he remarked: "It is for my children." He has two sons and a daughter.—Montreal Gazette.

A Power of its Own.—Dr. Thomas' Eclectric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

A Duck's Speed

The speed at which a duck can fly is much greater than the average person would suppose. For instance, it has been estimated by a competent authority that the speed of the canvas back is ninety-eight miles per hour; that of the blue-winged teal duck, eighty-nine miles; and that of the Canada goose, seventy-six miles. These speeds are probably in excess of their average flights, however.

WOMAN COULD NOT WORK

Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for a tired, worn-out feeling and painful periods. I used to get up with a pain in my back and pains in my lower parts and back. Often I was not able to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and I have taken it. I feel so well and strong and can do every bit of my work and not a pain in my back now. I recommend your medicine and you can use this letter as a testimonial."—Mrs. FINK, MAHER, 801 Winslow St., St. Paul, Minn.

Just another case where a woman found relief by taking Lydia E. Pinkham's Vegetable Compound. Many times these tired, worn-out feelings and pains about the body are from troubles only women have. The Vegetable Compound is especially adapted for just this condition. The good results are noted by the disagreeable symptoms passing away—one after another.

Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.

LOVERS OF FLOWERS

FOR Spring Flowering in the Garden and in the house during the winter months Flowering Bulbs such as Hyacinths, Daffodils, Tulips, Narcissus are unequalled. Very easy to grow. Instructions with every order. Moderate in price.

ONE CENT SALE — The Rexall Stores — CANADA'S FAVORITE DRUG STORES — ONE CENT SALE

The Plan

Buy a 25c box of Aspirin Tablets (T. D. CO.) at the regular price of 25c

and you will get another box for 1 cent or **2 for 26c**

ONE CENT SALE!

Another Example

Buy a 40c tube of Rexall Shaving Cream at the regular price of 40c

and you will get another tube for 1 cent or **2 for 41c**

Sale Thursday, Friday, Saturday, Oct. 12,13, 14

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full size packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We cannot afford to charge or deliver goods during this sale. Right reserved to limit quantities.

HERVEY NEWS

—o—

Mr. John A. McDonald of Calgary was a caller at the "Tee Pee" ranch on Sunday.

* * *

Master Girvin Layeroft is quite ill, but is thought to be on the road to recovery.

* * *

Mr. "Charlie" Chaplin, who has been in the neighborhood for the past 2 months helping in the harvest, has returned to his home in Vancouver.

* * *

Mrs. Walter Keer was calling in the neighborhood on Sunday.

* * *

A recent discovery was made when a resident of the Hervey District was dixing potatoes. He discovered that there was a very vast difference in the potatoes, some that were planted close to a row of onions were much larger than those farther away. The cause is thought to be that the onions made the potatoes eyes water and served as a substitute for irrigation. This gives the Hervey District a very bright prospect for potatoes.

* * *

Two young ladies of the neighborhood went calling on a bachelor Sunday evening. They stayed so long "Dobbins" got uneasy and went home. The ladies took shanks horses and made home by the moonlight.

* * *

Mr. and Mrs. Chris. Hagen made a business trip to Calgary last week.

* * *

John Patterson, J. P. Lowry, Mrs. J. Shober, made a business trip to Calgary on Monday.

* * *

Mrs. Chas. Pugh returned to her school on Sunday after spending the week-end at her home.

* * *

Threshing in the Hervey District is now finished and fall plowing is on the move.

—o—

HE DOESN'T LIVE HERE

—o—

Speaking as the guest of honor at the banquet here last night of the National Millers' Association, Hon. James A. Robb minister of railways, stated that the Wheat Board bill was put through not to hurt the millers, but to help the farmers. Members of parliament from city and country of the three prairie provinces were, he said, unanimous for a wheat board. "Today the west has no wheat board the powers parliament granted are not used—but the west is happy, contented, and confident."

Local Jottings

OF LOCAL INTEREST

Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

The campaign being put on by the Union and Anglican Churches making October "Come-To-Church" month started off very successfully on Sunday with large attendances at both churches.

Moving pictures are now being shown every Wednesday and Saturday at the Memorial Hall, under the direction of Mr. M. S. Hirtle. Mr. Hirtle is showing nothing but first-class pictures, and deserves every encouragement.

As will be seen from our advertising columns, Mr. W. M. Marshall is giving some fine buying opportunities in the Rexall One-Cent Sale being held Thursday, Friday and Saturday of next week.

Last week witnessed the first frost of the season, but it has only been slight so far.

Mrs. Fred Moore is at present on a visit to her parents, Mr. and Mrs. Thos. Crawford.

Mr. and Mrs. Fred Schaufeli are rejoicing in the birth of a daughter on Monday.

Rev. J. Rex Brown, D. D. G. M., Calgary, and Messrs. Jess Rockley, A. J. Davis, and Mr. Williams, Calgary were fraternal visitors to Strathmore Masonic Lodge on Monday evening, this being Bro. Brown's official visit.

A memorial service will be held for John McMillan, deceased child of Mr. and Mrs. McMillan, of Tudor, on Sunday, October 8th, at 3 p.m. at the grave in the Strathmore Cemetery.

Mr. Chas. Kreling has gone into the coal business. He is building a shed on the north side of the railway track and also installing scales. Announcement of this will be found in our advertising columns.

Hockey and skating enthusiasts, most of them C. P. R. boys, put in a busy time on Saturday afternoon getting the skating rink into shape. A large waiting room and spectatory stand is now being erected, the buildings having been hauled in from the country. Don't forget that the boys are putting on a dance on Friday in aid of their funds.

Mr. and Mrs. Himmelman, Calgary, visited during the week-end with Mr. and Mrs. M. S. Hirtle.

Mr. J. C. Buckley, M. L. A. for Gleichen suffered a heavy loss when his separator was destroyed by fire last Wednesday. The fire broke out about two hours after the machine had stopped work. It is thought the fire originated from an overheated bearing.

One of our local institutions that has made good progress during the past year is the Strathmore Citizens' Band. Under the leadership of Mr. M. S. Hirtle, they have made numerous public appearances during the past summer and are looking forward to further activity during the winter. Local musical talent deserves every encouragement, and we hope that this will be extended, both as regards the band, and the local orchestras.

We regret to report the death on September 30 of the infant son of Mr. and Mrs. Geo. Inkster, Namaka, of whooping cough. The deceased boy, Robert Lyle, was only two months old. The funeral service was conducted at the funeral parlors of Chas. and Co., Strathmore, on Monday, and interment took place at Strathmore Cemetery, Rev. A. H. Rowe officiating.

O. W. Moore, Assistant Superintendent of Operation and Maintainance, Brooks; J. McIntosh, Accountant, Brooks, and G. P. F. Boese, Designing Engineer, Calgary, were on a visit to Strathmore Wednesday and Thursday looking over the Irrigation system with Mr. Stockton.

The numbers registered at Strathmore Schools during August was as follows: High School 68, Public 115. The average daily attendance for the month was High School 62.5, Public School 107.5.

Mr. and Mrs. Geo. Hovde, Ardenode, are rejoicing in the birth of a ten and a half pound boy on Monday morning.

Mrs. Sharman, Ardenode, is contemplating a visit to the Old Country next month.

Crops throughout Ardenode district have been lighter than those further south, on account of scanty rainfall. The crop of August Jensen, which ran between 17 and 18 bushels wheat per acre, is one of the best dry land yields in that district.

Mr. Thomas Barry, who underwent a severe operation at Calgary recently, is making very good progress towards recovery.

A son was born to Mr. and Mrs. Ronald Elder in Gleichen Hospital recently. Mrs. Elder will be remembered here as Miss McDowell, and was employed with the Strathmore Trading Co., for some time.

The board of railway commissioners for Canada met in Edmonton on Monday. Among other matters up for hearing was the application of the Alberta Dairymen's Association for a lower express rate on three gallon cream cans. At present the minimum charge is on a five gallon can. This arrangement penalizes the small producers. There are 35,000 cream shippers in the province, the majority of them, shippers of small lots. The commissioners gave the dairymen and express companies one month in which to reach a satisfactory arrangement. Failing to do this the commission will draw up a tariff.

Is she the Mistress of the World? Several news items, etc., are unavoidably held over.

A compliment worth noting comes from that sterling stock journal, "The Breeder's Gazette" of Chicago. In discussing the British embargo, editorially, this journal said:—"England's pledge that the embargo would be removed probably was made when she required to make new pledges to some of her dominions. The pledge has now been redeemed. That fact has the solid merit of English honesty, whatever one may think of it in relation to the English stock breeding industry." The expression used here "the solid merit of English honesty," has the right ring to it.

Liniments Won't Relieve Pain Between the Eyes

That pain is not rheumatism or neuralgia. Many folks thinks so, it is due to Catarrh, plain ordinary Catarrh and needs attention right now. Catarrhozone is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchials and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists—and doesn't attempt to relieve an illness in the head or throat by means of medicine taken into the stomach. There is no sufferer from a grippy cold or any winter ill that won't find benefit in Catarrhozone, which is employed by Physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months, and costs $1.00. Small size 50c, sample size 25c, all storekeepers or the Catarrhozone Co., Montreal.

MY CANADA

Bar B Ranch.

August 14th, 19.—

I am so angry with Mr. Livingstone that I could revert to the days of my unregenerate childhood and kick and scream. Not for years have I been filled with a rage so helpless, so hopeless, and so unreasoning. I flatter myself that I can stand teasing with the next one—but Don Livingstone is the most exasperating person I have ever met! He seems to consider it his mission in life to plague me to the limit of my endurance, and when I have reached that point he adds insult to injury by laughing at me. Perhaps he is merely trying to pay me back for the hinder I made at Elba. And that reminds me that Mary did not know who he was at that time; she had never met Mr. Bingham's partner, and, not being particularly interested in him, did not connect him with the Don Livingstone of Elba until after Mrs. Bingham went to Winnipeg last month. Then, when it occurred to her that I might come here, she could not resist the temptation to keep the secret from me, in the hope that it might be productive of amusement for her and embarrassment for me.

When I try to put the cause of my anger into words, it seems a very small thing indeed, and I am ashamed that I allowed my annoyance to be seen. I do not know what Mrs. Bingham will think of me.

Last night, Saturday, Mr. Paget called. He is rather an extraordinary being, I must admit; still, even if he is painfully lacking in a sense of humour, he is a gentleman and English. **He plays** beautifully and sings not **too badly**, and when Mr. and Mrs. **Bingham as** an appreciative audience, **we sang** several duets, and were having a truly enjoyable time untangling "Oh that we two were maying," when the serpent appeared.

"Not that Mr. Livingstone, with all his faults, has anything of the serpent about him! Forgive my scriptural metaphors. He came in through the kitchen, dressed—spurs and all—just as he had come off his horse after a day in the saddle, a big mug of milk in one hand, and a wedge of Lee's delectable raisin pie in the other. And as he came he sang, in a sympathetic tenor voice of strength and of better uses, quite the silliest and most sentimental of the popular songs of the day. Really, the contrast between him in riding-clothes and Mr. Paget in evening dress was very striking.

Our duet stopped suddenly and Mr. Paget calmly fell into the supposed accompaniment to the interruption. He evidently knows that when Mr. Livingstone begins to sing he does not stop until he has finished it.

"Don, I do wish you would not sing that insufferable song," put in Mrs. Bingham when the song was ended. "Miss Eliot has never heard you sing to the guitar, you know."

"Did you get track of the horses?" asked Mr. Bingham.

"Evening, Livingstone," put in Mr. Paget—"jolly good song, that. In its own class, of course, Mrs. Bingham."

The three greetings were characteristic, as was the compound reply.

"Gee, I wish you people would go on with the dance, and let me eat!" My apologies, Mrs. Bingham; I'll sing Tosti's 'Good-bye' for you later on and as I finish this pie—but you must cry into your handkerchief, I don't want my spurs rusted. The horses were at the Agency, Jack. Glad to see you, Paget; do the orchestra stunt while I feed the brute, there's a good soul."

All this was said in one breath. Then Mr. Livingstone returned to his light refreshments and did not speak again until they had gone the way of all flesh.

But we did not have Tosti's "Good bye" (I was not sorry—I hate watersoaked sentiment), for Mr. Living stone was in a teasing mood, and as soon as he was ready to sing he began to guy Mr. Paget, telling him the most awful "whoppers" about pioneer life in the West. And the worst of it is that he is sufficiently clever to add just enough truth to his stories to make them probable, even to one who is inclined to be credulous. For a while I rather enjoyed the novel experience of seeing someone else get my usual fare; but at last my patriotism overcame me and I entered the lists in the interests of Old England. Mrs. Bingham occasionally exclaimed, "Oh, Don!" after a more than usually direct shot, but Mr. Bingham paid very little attention to us. Finally, Mr. Paget began to realize that he was being butchered to make a Roman holiday, and I was indeed glad to see him rise to go home, for I feared a scene. Mrs. Bingham assured me afterwards that my fears were groundless, and that last night's performance was a common occurrence, in spite of which the principals were the best of friends.

"Well, what do you think of dear Lawrence, Miss Eliot?" said Mr. Livingstone when our guest had gone.

"He is very nice and gentlemanly," I replied sweetly; "he made me feel quite as if I were at home again. And he sings and plays so well—when he has a chance."

"One for you, Don," laughed Mrs. Bingham.

"Rotten bad taste, I call it, for him to come here in his war-paint when he knows that we never dress for dinner," remarked Mr. Bingham, to my great surprise.

"Oh, I don't think so," replied Mrs. Bingham. "I consider it a compliment to us—don't you, Miss Eliot?"

"I certainly do," I agreed.

"You know, Jack," Mrs. Bingham went on, "we Canadians are careless about such things. And you have caught the habit from your Canadian wife, I suppose. I always put on a fresh dress for dinner and no does Miss Eliot, and I have never heard you complain that we are overdressed."

"Of course I like to see my womenfolk decently dressed," said Mr. Bingham grudgingly, as a man here he paused and looked to Mr. Livingstone for assistance.

"Paget's not half bad," began Mr. Livingstone, "but he does lay it on rather thick at times. Reminds me of a man who wouldn't shoot a rabbit because he was dressed for grouse. But if our clothes make Miss Eliot homesick, we'll have to see what we can do about it. You have a dress-suit, haven't you, Jack?"

"Yes," said Mr. Bingham; "but I haven't had it on since the summer I was married—prairie bee!"

"I'll see that you get it out to-morrow, and I'll disinter my own, too. And what about Lady? We may as well do this thing properly while we are at it."

I said good-night and went to bed!

(To be continued)

Middle Ages Period

Extended From the Year 476 to the Year 1453 A.D.

The Middle Ages was a period of about a thousand years in the history of Europe, beginning with the fall of the Western Roman Empire in 476 A.D., and ending with the fall of the Eastern Roman Empire in 1453 A.D. The Middle Ages include years between the close of Classic Times and the dawn of the Modern Era, and constitute the epoch of feudalism, chivalry and the crusades. During this time the German barbarian tribes overran Western Europe. Upon the ruins of Roman civilization they imposed own culture and institutions founded the states of modern Europe as they exist today.

Quite a Slow Train

A fussy old fellow was making a journey on a branch line. The train had slowed down again after stopping several times. The old man's patience became exhausted, and, taking out his watch, he said to a fellow passenger: "How much is this train overdue?"

"Well, sir," was the reply, "a watch ain't no good; you need a calendar."

Nervous Breakdown

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

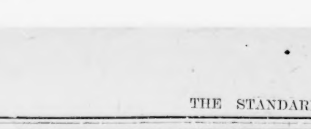
This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:—

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least trouble would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect.

"A friend advised the use of Dr. Chase's Nerve Food and I can truly testify today to the great benefits received. There was a marked change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the quick and permanent relief it has given me."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.



About Moths That Look Like Honey Gathering Humming Birds.

"THAT was a great laugh we had to-day about Kiwis!" giggled Pimzie, "and, oh, boys, isn't it fun to laugh?"

"Oh," cried Snookums, "just as we are thinking—or, rather, laughing about a bird there's another! Look! It's a Humming Bird." And the little fellow pointed toward some white jessamine flowers that bloomed nearby. The Brownies jumped up and ran toward the jessamine bush.

"Hello, Humming Bird!" they cried, crowding close to the little creature that was fluttering above the blossoms. But there was no answer.

"Humming Bird! Hello!" they cried again. This time there was an answer.

"I'm not a Humming Bird. I'm a Hawk Moth. A Humming Bird Hawk Moth." And it flew away to some other flowers, where it was suddenly joined by another Moth.

The Brownies followed and stood staring at the two dainty little visitors to their far away home. At last Pimzie ventured to invite them to come and talk, which the two Moths gladly did.

"Why did you come to the End-of-the-Earth?" Snookums asked the one nearest him.

"Because we had heard that it is the most wonderful place in the world," it replied; "so we naturally thought we'd find the loveliest flowers and the most delicious honey here. And we have!" With these words it rolled up its long tube-tongue as though to taste whatever sweetness was left on it from the flowers.

"You certainly fooled us!" exclaimed Rinkajou. "We were sure you were Humming Birds for your wings fluttered so as you hovered over your honey getting that you looked exactly like them. At least," he added quickly, "you remind one of them, for those your wings whizz so quickly that they make a sort of halo around you, so that it really is impossible to see you distinctly then."

"And when you unroll your long tube-tongue," said Pimzie, "and stick it down into the heart of a flower it looks just like a Humming Bird's beak!"

"And then," cried Snookums, who was very puzzled, "you have a tuft of long scales on each side of your body which looks for all the world like the Humming Bird's tail feathers. You certainly did fool us!" The two Moths seemed very pleased.

"We fool everybody," they said with great pride, "and that is just why we have been given our name of Humming Bird Hawk Moth," and they rolled out their long tongues.

"But Moths only fly at night!"

"Most of them do," one answered, "but there are exceptions—we are exceptions! You see," he explained, "we eat honey, and, as every one knows, it is much easier and more pleasant to get honey in the sunshine. Our babies eat at night, though, as well as by day."

"What do they look like?" asked Pimzie curiously. "Tell us about them."

"Mrs. Moth's eggs," said Mr. Moth, "hatch out Caterpillars, which grow to be about two inches long before they spin their cocoons and later change into Moths just like us. They are greenish, brownish Caterpillars with dots and line of a paler color, and they have a horn on top of the end of their bodies by which they hang to a twig while spinning their cocoons."

HAWK MOTHS

"What do your Caterpillar babies eat?" asked Lorykins.

"Oh, straw or stems or fruit," said Mrs. Moth said carelessly. "But I'm hungry for more honey. We must be off." With that they both flew away.

"Well, I never!" Pimzie cried in amazement. "Let's go and tell Stella." And four very bewildered Brownies started running toward Stella's fairy lily house.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

Using Volcano As Steam Engine

Boring Into the Earth's Crust on Island of Hawaii

An observatory, under the direction of Professor Jorgen, has been established for some time at the crater of Kilauea, on the Island of Hawaii.

This volcano is remarkable because, while at all times manifesting a tremendous activity, it is not an explosive, but keeps its fires hidden underground.

It is believed that Kilauea's fires come from a great subterranean "pool," so to call it, of molten stone and metal that has pushed its way up through the earth's crust from the inconceivably hot interior of the globe.

Experiments, long contemplated, are now being undertaken by boring holes down through the rocks in the neighborhood of the crater. It is hoped by this means to tap sources of volcanic steam, which could be used to great advantage for industrial purposes in Hawaii. There are no deposits of coal on the Island.

The Hawaiian Islands are wholly of volcanic formation, having been thrown up in an ancient epoch from the floor of the sea. There is plenty of evidence to show that in comparatively recent times Kilauea was much more violently eruptive than it is today. It emitted vast lava flows, and threw out enormous quantities of ashes, deep beds of which remain to tell the tale.

In these beds are found millions of "volcanic marbles," many of them perfectly spherical, which are most curious because nobody can tell why or how they were formed.

Think Before You Write

One Cannot Be Too Careful in Writing Letters

There are few precepts more worthy of acceptance than that which bids us to beware of the written word.

"Think before you speak," is excellent advice. "Think before you write, and then don't write, or at any rate not what you had at first intended to say," is better.

To write a thing is far more serious than to say it. The glamor of personal presence is not there to color the meaning, the charm of manner, the shades of tone are lacking; the bare words must stand on their own merits.

Moreover, it is impossible to foresee the frame of mind in which a letter may be received. It may be a mood to which perhaps the writer would never have addressed such words, could he or she have known beforehand.

Nor is it wise to commit oneself too strongly on paper with regard to what one will or will not do in the future. All these good resolutions and fair promises are apt to confront one later on, to one's confusion and dismay.—London Daily Mail.

Why not borrow your neighbor's spectacles and have a look at your own faults?

For Fascinating Eyes make the use of Murine a daily habit. This refreshing eye lotion soon makes eyes clear, radiant, beautiful. Harmless. Unbeatable. Sold by all druggists.

MURINE for Your EYES

C.O.D. Parcels By Mail

Canadian Mail Service Will Now Have C.O.D. System

Announcement is made by the post office department that a C.O.D. service in connection with mail matter will become effective in the Dominion on October 1. The regulations under which the service will be operated are as follows:

On and after October 1, 1922, a C.O.D. service in connection with mail matter will be established within Canada, whereby charges due the sender up to $100 may be collected from the addressee and remitted to the sender by post office money order. This service will apply only in the case of mail matter posted at a money order post office for delivery at another post office within Canada. Rural routes starting from money order post offices are for this purpose considered as money order offices and must be granted a C.O.D. service, the C.O.D. fee, also cost and insurance and registration.

In the event of addressee having paid the charges due on a C.O.D. article, and after examination of the same, desires to hand the article back and have the money refunded, postmasters are instructed that such request, is in no wise to be complied with, but that it is duty of the delivering office to collect the amount due and remit it to the sender of the article," the announcement states, "and it may be explained in the circumstances above indicated that any objection to the goods received, or desire for return of the money, is entirely a matter for settlement between the addressee and the sender."

Mining Under Difficulties

The Deepest Gold Mine in the World in Australia

Australia is supposed to have the deepest gold mine in the world. This mine is at Bendigo, Victoria, and was named the New Chum Railway mine. The miners who worked in it were obliged to travel down a shaft nearly three-quarters of a mile deep. The work of hauling men up and down a shaft of such depth and bringing the rock to the surface of the earth was not the hardest problem.

It seems that the temperature of the earth is supposed to increase one degree for every fifty or one hundred feet the farther down we go. In the New Chum Railway Mine this increase of temperature was not found; or they say it would have been impossible to work the mine. The heat in the mine was so terrific, however, that it proved a greater problem to overcome than any of the engineering feats. The temperature of one hundred and eight degrees was so enervating down in the depths that it was necessary to continually spray the bodies of miners while at work with cold water from above ground. Away from the spray the men could not stand, and it was as much as they could do to work moderately under the spray. If they worked the least bit too hard, they fainted.

It wouldn't do for a worrying sort of a miner to work in that mine, because he might always be troubled about the possibility of the spray being stopped.

Payment of War Debts

Great Britain Has Been Very Generous on More Than One Occasion

Cancellation of the war debts of former allies is by no means an unprecedented act. Great Britain particularly has been generous in this regard on more than one occasion.

After the Napoleonic wars England endeavored for seven years to obtain payment of £6,000,000 from Austria, and finally compromised on £2,500,000, which represented eleven per cent. of principal and interest due.

The indemnity imposed upon France after the Napoleonic wars was only £28,000,000. Yet the debt of victorious England in 1817 was £848,000,000 and the national debt of France was only £140,000,000. Prussia had paid to Napoleon in levies more than twice the amount of the total indemnity and she therefore objected to the moderate terms imposed upon France.—Saskatoon Star.

Itinerary of Scottish Curlers

The Ontario Itinerary of the Scotch curlers who will visit Canada, January, the coming winter, has been arranged by the executive committee of the Ontario Curling Association. No dates have been fixed because the exact date of their arrival is not known. The expectation is that they will land at Halifax early in January. After Ontario engagements, the touring will go to Detroit, Chicago, St. Paul, Minneapolis and Winnipeg. Some of the rinks may go even further west in Canada.

Western Wheat for Japan

Western Canada will ship considerably more wheat to Japan the coming season than formerly, according to a statement made by a director of a large Japanese grain firm at present visiting Alberta.

In the canton of Valais, in Switzerland, lies a small body of water, Lake Marjelen, which at irregular intervals, every three or four years, completely disappears. The phenomenon always occurs during the last days of August.

DIARRHOEA IS DANGEROUS To Teething Babies DURING HOT WEATHER

Hot weather is a dangerous time for the babies when cutting their teeth, and all mothers should watch very closely for any sign of diarrhoea, dysentry, cholera infantum or any other bowel trouble.

There is no remedy so safe and effectual for diarrhoea as Dr. Fowler's Extract of Wild Strawberry and all mothers who have used it speak of it with the greatest confidence.

Mrs. James E. Green, Vermilion, Alta., writes under date of Aug. 18th, 1921, as follows:—"A week ago my baby boy, just one year nine months old, started cutting his teeth, and was so sick he could eat or sleep, and had the diarrhoea most terribly bad; his rectum was raw and bleeding, but after giving him Dr. Fowler's Extract of Wild Strawberry regularly for three days he was as well as any boy could be. I wouldn't be without your grand remedy for untold gold."

"Dr. Fowler's" is for sale at all dealers; price, 50c a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

RICH IN VITAMINES

MAKE PERFECT BREAD

WORLD HAPPENINGS BRIEFLY TOLD

Gen. Sir Pertab Singh, regent of Jodpur State, British India, died sudden on Sept. 4 of heart disease.

A severe earthquake wrecked Tainan, Northern Formosa, Sept. 2, according to advices received at Tokio.

The late Prince of Monaco left to the French Academy of Agriculture his model farm at Sainte Suzanne, in the Aisne Department in France.

A Moscow message states that it is the intention of the Soviet Government to sell the crowns of the Tsars, which have been kept in the Kremlin.

The German Government has sent a note to the League of Nations, entering a fresh protest against the presence of French troops in the Saar district.

Nearly four thousand farm hands were placed on Alberta farms during August, according to the monthly report issued by the Alberta Provincial Labor Bureau.

A syndicate which is promoting a steamship service between France and Ireland has bought a vessel in Amsterdam with accommodation for 550 passengers, in addition to cargo.

Louvain University Library is gradually being built up again. It already contains 261,000 books. In 1914, before the Germans set fire to the town, it contained 500,000.

A plot to kill the Rumanian Royal Family while attending the races during a festival has been uncovered and a number of former Hungarian army officers were arrested.

The Chinese Government has informed the Chamber of Commerce that the ordinance prohibiting evenemy aliens in Hong-kong, which expired on August 29, will not be renewed.

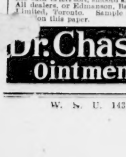
Rumors circulated in Berlin of the death of former Crown Prince Frederick William of Germany, who is staying at Doorn, Holland, with his father, were denied by the latter's personal physician.

A service of motors-omnibuses is now working between Bagdad and Aleppo. The journey, by way of Mosul, takes five days, and the desert sheikhs have accepted a lump sum to restrain their tribes from raiding the omnibuses in transit.

George Robert Sims, journalist and dramatic author, died at his home in London on Sept. 5. He observed his 75th birthday on Sept. 2. He had conducted a column in the Referee under the pen name of Dagonet since the founding of the paper in 1877.

A shortage of thirty million tons of coal has been caused in the normal supply of the United States by the tie-up in that industry, according to estimates made by the central bureau of the chamber of commerce in the United States.

Six hundred miners employed by the Madison Coal Corporation at Herrin, Ill., went on strike following refusal of company officials to allow some of the men who ride to work in automobiles to park their cars inside of a fence which encloses the mine.



BEAUTY OF THE SKIN

Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample free if you on this paper.

Dr. Chase's Ointment

W. N. U. 1437

Prince Not Wealthy

Financial Demands Absorb Greater Part of Yearly Income

Although probably nobody will maintain that the Prince of Wales should be classed as a poor man, yet he is by no means so affluently situated as many may imagine. It is true that his apparent income runs into about 200,000 a year, but the financial demands upon him are so heavy that this sum is very considerably shrunk before he can really call any part of it his own. Incidentally, it may be of interest to know that, although parliament granted certain sums for the Prince's eastern tour, he was considerably out of pocket as a result of his somewhat extensive trip.—Christian Science Monitor.

Do Large Breaths Hurt? Is Your Chest Wheezy?

Proper treatment is a vigorous rubbing of the chest, neck and sore, side with good old Nerviline. This wonderful liniment sinks into the tissues where the pain is seated and gives instant relief. That catch disappears, all sense of soreness goes quickly. Just try Nerviline for chest tightness, coughs, colds, and soreness. It's a wonderful liniment, saves the whole family from numerous minor ills and should be in every home. Large bottles, 35c at all dealers.

Why the Rush?

A remarkable increase in the volume of motor traffic in Canada is shown by returns compiled by the Department of Customs. According to their registrations 617,285 automobiles entered Canada to tour during 1921, as compared with 93,300 for the previous year.

RUN DOWN PEOPLE WEAK AND NERVOUS

Thousands in This Condition Can Easily Help Themselves

There are thousands of people who bear the pain and discomfort of minor ills in the hope that the indisposition is only temporary and will be outgrown in time. Often such illnesses are not serious enough to require the attention of a doctor, but will respond to intelligent home treatment if a reliable remedy is used. Women, busy with a multitude of household cares, or girls studying hard in school, easily fall a prey to that condition of bloodlessness known as anaemia. The trouble need not be serious if prompt measures are taken to check it in its early stages. Dr. Williams Pink Pills will restore the elements needed to bring the blood back to strength, and once the blood regains its healthy quality the entire body will soon share the benefit. Among the many who have found benefit through the use of Dr. Williams' Pink Pills is Mrs. Albert W. Smith, Miscouche, P.E.I., who says:—"I was very much broken down in health, had pain in the region of my heart, and was so short of breath that if I went upstairs I would have to lie down as soon as I reached the top. Then a strange nervous twitching of the muscles took possession of me, and every muscle in my body would apparently be twitching. I became very emaciated, and my family were much alarmed as to my condition. At this time I read an article in our home paper concerning Dr. Williams' Pink Pills and decided to give them a trial. The result was that in a short time I felt much improved, and after further use of the pills I felt like a new woman, had gained in weight and was in every way better. I would urge anyone afflicted as I was to give Dr. Williams' Pink Pills a trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box, or six boxes for $2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

Lions and tigers kept in captivity require one day a week without food to keep them in good health.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

The U.S. and Europe's Plight

The Reluctance of America to Hold Out a Helping Hand

We sit yawning on the bench and criticize the stroke of drowning nations. If our observers are accurate they must at each recurring conference report that continental Europe is drifting into a bad way, and that no relief in sight; the statesman of our lately associated nations almost at the end of their resources; civil war with anarchy and ruin to follow, audibly muttering around the corner. And we go on observing. As for holding out a helping hand, before it is too late, to our friends, our neighbors, our customers in trade, and our fellow-trustees of the garnered fruits of centuries of culture, that would be forming "entangling alliances," and is not to be thought of.—From the New York World.

Minard's Liniment Lumberman's Friend

Montreal Board Of Trade Perpetuates Maisonneuve

There is a striking monument in Montreal to Maisonneuve, founder of Canada's Metropolis. As in his lifetime, his thoughts were of the West, so does the memorial to him stand today. The sculptor has caught the spirit of the adventurous pioneer in the poise of the body and the head. Vision, courage, determination are plain to the observant eye and understanding mind.

Maisonneuve and the host of gallant men and noble women who laid the foundation of the Canada of today, long ago embarked upon the greatest and last quest. But their faith in the new land is as a living flame in the hearts of their successors. They see their country favored by geography and nature, a link between East and West, and extending almost 4,000 miles from ocean to ocean. They know that it is endowed with a richness of natural resources beyond the power of man to calculate. Above all they rejoice in its attainment to a place and a voice in the councils of the nations.

Retrospect is often pleasant. The true Canadian has little time for that. His heart and mind are on the present and the future. He knows that if his country is to come to full fruition as a nation it must be by still worthier efforts on the part of its people individually and collectively. No single province within the Dominion's farflung boundaries can afford to disregard another. Each must be in sympathy with all the rest. The East share in the problems as well as in the joys and prosperity of the West. The West must have faith in the East. Bound by an invisible but unbreakable chain of mutual affection and goodwill they can, and will, put and keep Canada in the very vanguard of the world's great nations.

The development of the national spirit has been fostered in many an hour of peril, difficulty and struggle. It is beginning to bloom in beauty and strength. Its progress has been greatly advanced of late years by the action of important organizations in sending delegations to many sections of the country, so that their members may add to their first hand knowledge of their homeland. Such an organization is the Montreal Board of Trade which will celebrate the one hundredth anniversary of its founding by beginning on September 1, a thirty days' tour of the Dominion. The members will not only see the country in all the glory of its most beautiful scenic settings, but the journey will be so arranged as to give them a new perspective of its wealth of soil, forests, mines and waters, and impressions of its industrial and commercial growth that would be impossible of visualizing in any other way.

From Montreal the party will travel westward via Toronto and the Great Lakes, thence from Port Arthur to Winnipeg, the greatest primary grain centre on the continent, across the vast prairie lands and through the Rockies to Vancouver and Victoria.

On the return journey they will make the 550-mile cruise up the north Pacific Coast from Vancouver to Prince Rupert, one of the palatial Canadian National Railways steamers. This part of the journey will give the party a splendid idea of the development in the mining, lumbering and pulp and paper industries of British Columbia, with all their future possibilities. At Prince Rupert, Canada's most northerly Pacific port, hewn out of the solid rock of Kaien Island, there will be every opportunity to gain an insight into the enormity of the halibut and salmon industry of the province. From Prince Rupert eastward the party will be come acquainted with the Skeena River, with its historic and romantic traditions, its arresting grandeur, and its fame as one of the most prolific salmon streams in the world. They will see too, some of the Bulkley and Nechako River Valley country, one of the newest fields of settlement opened up in the west. Unknown to the vast majority of Canadians, the luxurious valleys that lay between the mountain ranges in this area, are suitable for mixed farming, dairying, fruit growing and cattle raising. In the years to come their productivity, now a matter of knowledge to comparatively few, will offer means of livelihood and competence to thousands of new people.

Shortly after leaving Prince George, the party will pass through Mount Robson Park. This is a veritable wonderland of mountain scenery, some 650 square miles in extent and set aside by the Government of British Columbia as a national playground and wild life sanctuary. Here will be obtained an excellent view of Mount Robson, with an altitude of 13,068 feet. It towers above the surrounding peaks, sublime, majestic, with green glistening glaciers and pure white snow adding to its beauty. Sometimes its own summit is lost amid the mists and clouds; quite often that summit is the centre of raging storms. But on Mount Robson they beat in vain.

Next Jasper Park, another mountain kingdom, but of greater extent, embracing 4,000 square miles of sublime mountain scenery, is entered. Here the party will spend a day at Jasper Lodge, the new Alpine chalet built on the shore of Lac Beauvert by Canadian National Railways, and the first of a series to be built throughout these Northern Canadian Rockies. At night they leave for Edmonton.

From Edmonton the homeward route will be through the rich farm lands of the northern part of the prairie provinces to Winnipeg following the trans-continental line of Canadian National Railways through the rich pulp forests and new farm lands of Northern Ontario to Cochrane, down through the famous Cobalt mining districts over the Temiskaming & Northern Ontario Railway to North Bay, thence to Ottawa and back to Montreal.

Safety Ships

New Device Overcomes Difficulty of Launching Lifeboats

Lifeboats arranged on deck on rails, so that they can be run to that part of the ship from which launching is possible, are features of the new steamship Mecklenburg, claimed to be the last word in safety ships, which has just made her maiden trip between Folkestone and Flushing.

In many cases of disaster at sea it has been found impossible to launch all of the boats on a ship because of the list. By this new device this difficulty is said to be overcome.

Lemons grow wild on the island of Norfolk, a British possession in the South Pacific.

Nights of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in your own district.

Keep Minard's Liniment in the house

When you wake up at daylight and can't go to sleep again it's a sign it's a holiday.

Dye Old Dress Or Drapery In Diamond Dyes

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

French Mission Will Visit West

A French mission of three members is coming to Canada to open the new French Art Museum in Montreal. They are taking gifts to the museum from the French Government, the Ministry of Education and the City of Paris. The mission subsequently will tour the Western Canada provinces, going on to the Pacific coast, with the object of drawing closer the ties of Canada and France.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

The Polish alphabet contains forty-five letters.

A single orange tree of average size will bear 20,000 oranges.

New Plan to Exterminate Rodents

Use Poison Gas to Clear French Fields of Mice

The valley of Ajole, on the Swiss-French frontier, has been invaded by thousands of mice, and the rodents are doing much damage. They are believed to have come from the trenches in Alsace. The village authorities have arranged drives by the people, offering half a cent for each dead animal. Poison gas is being used and the method is to inject this into the subterranean galleries built by the mice. It has proved most effective, 27,000 dead being the record for one day.

Internally and Externally It is Good.—The crowning property of Dr. Thomas' Eclectric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Big Alberta Crop

Southern Alberta will have a 30,000,000 bushel wheat crop this year, according to D. C. McDonald, a farmer of long experience and grain broker, who considers this estimate conservative for the territory south of the Canadian Pacific main line to the international boundary. He estimates that the wheat crop of the entire province will top that of 1920 when 82,712,735 bushels were threshed.

Minard's Liniment used by Physicians

Indigestion And Dyspepsia Overcome

Victims of stomach trouble, Indigestion, dyspepsia and their allied complaints find Tanlac an ever-ready source of relief and comfort. Thousands of people have re-found the joys of health by its use after everything else they have tried had failed. Stanley Gibbons, 263 Chambers St., Winnipeg, Man., says:

"For the first time since I had the 'flu' I am feeling like my old self. For nearly three years I suffered so much with my stomach I dreaded to eat anything. I am never bothered with stomach trouble since taking Tanlac and I feel good to my finger tips."

Tanlac helps the stomach digest the food properly and eliminate waste. Soon the whole system is built up, the blood is purified and the entire body takes on new tone, vitality and energy. Get a bottle today and start on the road to health. For sale at all good druggists.

Handel's Appetite

Said to be Able to Eat a Meal That Would Satisfy Five Ordinary Appetites

Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant he generally took the precaution of ordering a meal for three. Once, on asking, "Iss de dinner retty?" at a tavern where he was little known, he was told, "as soon as the company comes," and he astonished the waiter by seating himself with the remark, "Den pring up he tinner—I'm de company!"

Handel, always voracious, delighted in dining alone, and was known to consume a meal that would have satisfied five ordinary appetites.

CATARRHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Circulars free. All Druggists.

Next Door

—o—

My lawn slopes smooth and velvety
Down to the river's brim,
Along one side a flower bed wide,
Footpristless, weedless, trim;
There's a willow tree and a walnut tree,
A beech and several more,
What a heavenly spot for idle hours!"
You said, and then you praised the flowers.
To me it's a mocking soulless place,
And I long for the one next door.
Their lawn is scarred with double ruts
Where baby's pram-wheels pass,
And John, aged two, delights to strew
The gravel on the grass;
There's a wheelless engine on the path
And some paper that Bobby tore
From the nursery wall; and the flower beds
Are trampled and strewn with stalkless heads—
But I'd love to exchange my silent lawn
For that garden of laughs next door.
—"Punch," London.

Returns received to date by the Department of Finance indicate a very general acceptance of the proposals for the conversion of 1922 Victory Bonds into new bonds bearing 5 and 1-2 per cent interest and running for a further period of five to ten years as desired. Many holders would like to take up considerable more of the new bonds than they have of the maturing issue, but this is not permitted as cash subscriptions are not being invited at this time. It is open, of course, for such persons to add to their holdings of 1922 bonds by purchasing them in the market or from holders who require the cash and then surrender them for the new bonds. It is known that this is being done.

EATON CLOTHING

New Styles in All Wearing Apparel

AT TEMPTINGLY LOW PRICES

THE new EATON Catalogue for Fall, 1922, offers wonderful clothing values for men, women and children. A mere reference to it reveals the advantages offered Western Canada through the combination of EATON buyers, EATON factories and EATON Catalogues.

With the harvest garnered, the West is looking around for the best in wearing apparel. We offer a selection which will be found to meet every requirement, style, quality, variety, and perhaps more important still, values that will meet the critical inspection of the most exacting.

Use the Eaton Catalogue as Your Guide

Keep it as a book of reference. Use it as a Guide in all your buying. But in particular consult it this Fall in the selection of your clothing requirements. It will be greatly to your benefit. Note the range of selections and prices as listed below.

For the Women

CLOTH COATS from the sedate model in plain Velour to a heavy, plaid-back coat in swagger mannish style. Prices from 16.75 to 30.50.

SMART, HIGH-CLASS CLOTH COATS, fur trimmed, in Opossum, Beaver, Brown Wolf, Coney, in light and dark shades, and the new Sealine, Moleine, and Beaverine fur finishings. Priced from 18.00 to 87.50.

FUR COATS—from the Marmot Coat and Electric Seal Coat trimmed with Beaver or Alaska Sable, to the Persian Lamb or Hudson Seal models. Priced from 85.00 to 350.00.

JITS in Vanity Fair Models—Navy, Brown and Black being the favored colors. In Tricotine at 35.00; Velour at 35.00; and All-Wool Serge at 18.75.

DRESSES in Duchess Satin, Tricotine and Satin Combination, Georgette and Canton Crepe. Priced from 10.75 to 24.50; with pleiner models in Serge, Tricotine, Poiret Twill, etc., ranging from as low as 2.65 to fine articles at 15.50.

SKIRTS in a selection of styles, materials and color effects; in plaids, checks, stripes and solid colors, are priced from 2.29 to 9.00.

BLOUSES in many styles and color effects, from plain Voiles at as low as 1.09, to Crepe de Chines at 8.95.

For Misses and Girls

BELTED COATS with some distinctly up-to-date mannish models. Some fur trimmed, others plain. Priced at 10.00 to 37.50.

Then there is the Loose-back, Wrappy Style in plain or fur trimmed. Priced 9.50 to 37.50.

DRESSES of Silks, Crepe de Chines and Crepes for better wear, and Serges, Twills and Tricotines, etc., for school and business wear, in a wealth of styles and colors, and priced from 5.69 to 22.50.

The range of Coats and Dresses for Younger Misses and Girls is complete, and for any price almost from about 3.50 to 25.00 the young idea can be made happy and smart in dress or coat.

For Children

WARM WINTER COATS for the Youngsters, in many attractive and beautiful colors, and of reliable All-Wool Blanket Cloths and Polo Cloths, with very moderate price markings, from 2.98 to 9.55.

CHILDREN'S DRESSES. Prices from 1.50 to 4.10. Dressy little models in Blue Serge with contrasting trimmings, American Beauty and Saxe Blue knitted dresses; in fact, about everything else in style, material and quality.

For Men and Boys

SUITS for Men at from 10.50 to 40.00, consist of beautiful quality goods for the money, and include all styles from the newest to the most conservative, in all cloths.

MEN'S and BOYS' OVERCOATS—the values and materials being of the highest standard the clothing market has afforded for some years. Almost anything you wish, from plain cloth to beautiful Coats, at very low prices—4.85 to 19.50 for boys; 13.50 to 59.50 for men.

The Youth and Smaller Boy could not ask for better than is offered here in suits and coats, at prices from 3.85 to fine models at 19.50.

Is there an Eaton Catalogue in Your Home?

If not, a postcard, with your name and address, mailed to us, will bring one to your door free of charge, affording you in your own home all the facilities of a great Departmental Store, even though you be located a thousand miles distant.

SEE OUR CATALOGUE FOR THE LATEST IN MILLINERY, WHITEWEAR AND BOOTS AND SHOES.
